Volunteering In Angola

We invite you to join us in our children's game rooms at either hospital where you can experience the joy your visit will bring a little one.

Listening to a young mother and offering suggestions or guidance that might help her become a better parent would be appreciated in our Bom Dia Mama project at the University Children's Hospital.

ANGOLA

A country - In times of change

Mundo do Amore e.V. “A world of love”

Our motto:

**The soft water breaks the stone,
a small drop comes from us !
[English Brochure](#)**

Mundo do Amor e.V. is a German registered non profit organization, founded in 1993 under the direction of nurse and chair Sybilla Doelker C. daSilva.

Inspired in 1992 by the work of Portuguese teacher Sao Flor, Mundo do Amor e.V. began working at the Children's Hospital of Luanda caring for hospitalized war orphaned infants and children.

Our member's contributions have made it possible for us to receive and distribute 16 containers from Europe with clothing, medicines, learning materials and toys benefiting not only Luanda's Children's Hospital but Beiral; a home for the elderly; Father Horacio's children's project, the HIV/AIDS project in the Province of Bengo and the womens projekt Tabita in Humabo.

In 2002 Mundo do Amor e.V. documented its practices in a collaboration with American non profit Shirley Ann Sullivan Educational Foundation by authoring for free distribution Bom dia Mama; a health literacy curriculum on nourishment and hygiene for the prevention of illness that can lead to death.

Our Activities in Angola

At the newly named Dr. David Bernadino's Children's Hospital we have created and support two play rooms for sick children, at the University Hospital Americo Boa Vida we have another play room and three professional staff working between both hospitals paid solely by the donations to Mundo do Amor e.V.

Mundo do Amore e.V. is very proud to support the orphanage girls association of ACCA. Our monthly grants help girls between the ages of 3 years and 18 years with items for personal hygiene, educational and training materials, food and medicines.
